

I abhor the changes that you are planning to vote on Monday June 2. After all, aren't the airways owned by the American People? It seems to me that you have given in to a few media conglomerates who want the rules relaxed so they can own a wider spectrum of outlets. They will not be reflective of the diversity of viewpoints in this country. One only has to look at the influence that radio deregulation has had on the industry. Clear Channel communications owns thousands of radio stations, dominating public airways with homogenized news. The alternative press has been marginalized, while foxnews has become the mouthpiece for the republican party. As an American citizen and a voter, I am embarrassed by the way the FCC has been cowed by corporate America. I urge you to vote against this measure.
